

## New Optik KOMTECH EasyConnect+ T310

The latest version of our connector series field KOMTECH Easy Connect is even more compact, space-saving and easy to install.

The base set of KOMTECH Easy Connect+ consists of an AF-TA T-310 as a transmission unit. Delivery includes receiver unit. It is an uncompressed transmission over CAT cable up to 100m possible.

The connector panel is also equipped with a ShowMe button for easy source selection, two 230V power outlets and a LAN port.

Inputs (TX): VGA & Audio, HDMI, DisplayPort  
Output (RX): HDMI

The receiver is housed in a separate metal housing.

Dimensions junction box unit (WxH): 310mm x 210mm

Cut Out (WxH): 290mm x 190mm  
Depth: 108mm

With expansion modules, the system can expand freely. The extension also consists of an AF-TA T310 and has the same features as the Easy Connect + base set.

Here you can see the needed connections between the connector panels.
